

Insurance with a *Difference.*

Mining is a high risk, high reward industry.
Let Knightcorp focus on your risks, so you
can focus on your rewards.

Think Mining. Think Knightcorp.

Mining is a high risk, high reward industry. Let Knightcorp focus on your risks, so you can focus on your rewards.

Knightcorp Insurance Brokers provide expert general insurance broking, risk consulting and claims services to companies operating in the mining, resources and associated industries.

Our team of experienced senior brokers have extensive knowledge and a comprehensive understanding of the mining industry and its associated risks. Our knowledge, experience and relationships in the global insurance market ensures we are able to place and service worldwide mining risks across all commodities and all geographies.

Built upon a foundation of professionalism, ethics, relationships and hard work, our success can be attributed to these key elements. As a company, Knightcorp has great pride in the service and commitment we deliver to our clients.

Risk Management

Ensure you're protected with an appropriate insurance program so you can focus on the big picture.

The complexity and demands put on mining operations means that insurance and risk management programs need to be exceptionally effective to reduce the cost of risk and help satisfy a variety of regulatory requirements.

Purchasing insurance coverage is the last step in the risk management process – no matter what stage your project is in, allow Knightcorp to ensure you're protected with an appropriate insurance program so you can focus on the big picture.

- Environmental Liability
- Broadform Liability
- Surety Bonds

*This is not a comprehensive or exhaustive list. It is intended as a general guide only.

A large yellow mining truck is driving on a winding road in a quarry. The road is dark and has many tire tracks. The surrounding rock walls are light-colored and layered. The truck is carrying a load of dark material, likely coal or ore. The scene is captured from a high angle, looking down at the truck as it moves along the curve of the road.

“ Great things in business are never done by one person, they’re done by a team of people. ” - STEVE JOBS

An extensive knowledge and a comprehensive understanding of the mining industry.

Knowing The Industry, Understanding the Requirements

At Knightcorp, our team of experienced senior brokers have extensive knowledge and a comprehensive understanding of the mining industry and the organisations who service the sector, which can include:

- Engineering and fabrication companies
- Mining contractors (below and above ground)
- Mobile Plant and Equipment Hire companies
- Specialist Consultants (Geologists, Metallurgists and Environmental Consultants etc)
- Drilling Contractors

Each company involved in the process have different risk profiles

- Consultants have complex Professional Indemnity exposures
- Drilling contractors often have more extreme Public Liability and Workers Compensation risk exposures
- Mining Contractors often have significant mobile plant risks

Knightcorp Insurance Brokers understand the Insurance and Indemnity conditions that mining companies seek to contractually impose and we are well experienced in assisting you to comply with these requirements.

We understand that companies who service the mining sector need prompt, practical and comprehensive advice from their broker. We ensure that insurance and risk management compliance does not hinder our clients commercial and corporate objectives.

Every Step Of The Way

An integral part of the Corporate Service that Knightcorp offers is our in-house Claims Support team. Our experienced Claims team understand the specific complexities of mining related claims.

The Claims team will manage the entire claims process, working closely with you, our client as well as the Insurer and the Corporate Services team from start to finish. The Knightcorp Claims team always strive to achieve a fair and timely settlement of any claims that occur.
